Career Objective

Enthusiastic and results-driven Full Stack Developer with a solid foundation in HTML, CSS, JavaScript, React.js, Node.js, and databases. Skilled in developing responsive and user-focused web applications that enhance functionality and performance. Passionate about continuous learning, adapting to new technologies, and solving real-world challenges through innovative solutions.

Technical Skills

Programming Languages: C, C++, JavaScript (ES6)

Frontend: HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, VS Code

Core Concepts: DSA, OOPs, DBMS, Operating Systems, Computer Networks, REST API Integration, Authentication, Responsive Web Design, Debugging, Version Control

Projects

Project Management System – Developed a full-stack web application to manage projects, tasks, priorities, and team members. Implemented user authentication, workspace-based project organization, and status tracking with a focus on scalability and clean UI.

Portfolio Website – Developed a responsive personal portfolio using HTML, CSS, and JavaScript to showcase academic background and projects. Integrated smooth scrolling for enhanced UX.

Ecommerce website–Developed a full-stack ecommerce platform with Node.js, Express, and MongoDB, featuring product browsing, filtering, variant selection, cart management, and online payments via Stripe . Built an admin dashboard for product management and order tracking.

Education

B.Tech in Computer Science & Engineering – Gyan Ganga Institute of Technology and Sciences, Jabalpur 2022 – 2026 / CGPA: 7.79

Strengths

- Quick learner with adaptability to new technologies
- Effective time management with the ability to meet deadlines.
- Strong attention to detail, collaboration and passionate about continuous learning
